Brethren Church**

## Projects

**Children's Camps**  
International

### São Sebastião Project

We completed the entire module of the "The Trail" by designing and doing "Bible with Art", gluing illustrated pages into the Bible text.

They have learned a lot and taught us in return. May God bless each one who blesses the Side-by-Side project.

## Little Disciples

We are preparing the lesson for the next meeting with Josimário and Gustavo, who are disciples of the leader Angélica at the Tiradentes Settlement.

Currently, they are co-leaders and teach lessons from the modules of the Side-by-Side project in the SG located in the Zumbi dos Palmares neighborhood.

Cláudia Nunes, missionary in São Sebastião, Federal District

## Eden Project

The SGs in the Vilares da Serra community are becoming solid. We are finishing the 1st cycle, wrapping up with the module “THE FINAL STATION”. We see the children eager to memorize, win cards, discover mysteries, pray, sing – and all of this brings great joy to our hearts. It's fuel that keeps us going with perseverance.

## Gratitude

The children have been learning a lot about God's Word through playful activities. We are thankful for CCI's support in the Eden Project. May God bless each one!

Rosana Oliveira, missionary in Maranguape, Ceará

## Maranguape, Ceará

This SG is located in Umarizeiras, Maranguape. Each child is accompanied by leaders trained by the Side-by-Side project from CAMP. We have seen the discipleship process take root in these children's lives. It's a slow work, but like the cedar of Lebanon: its roots grow deep first.

It's unseen, it takes time – but something is happening. It's being rooted in the Word, so that one day they will grow in the stature of faith. That is our belief, we remain, and we sow patiently in the Lord!

## Radical Change

“I’m Pedro Victor, and I didn’t use to like going to the SG, I was always forced to go because it was on the same day as my soccer games. I was also rebellious and disrespectful. But I learned to love going to the SG, to enjoy praying, and I really like my SG friends.

I’ve also changed a lot at home. Today, I’m a loving, kind, and mature boy in God.”

Gildemar and Fádía Cavalcante, supervisors in Maranguape, Ceará

## New Hope Project

**Agatha, age 11, from the “Friends of Jesus” SG**

“In the SG, I love learning more about God. Recently, I’ve been learning how sin can be bad and harmful to us. The first time I went to the SG, it was amazing and it was because of that experience and

everything I learned there that I gave my heart to Jesus at 9 years old.”

Pastor Junior Luiz, supervisor in Pajuçara, Ceará
